Learning Activity Report

Complete the following report for *each* journal article or case study you review in order to receive points for this activity.

Outline your key learnings from the journal or case study and how it applies to your everyday work in 250 words or less.

Some guiding questions are:

- What new information did you learn from this article or case study?
- How can you use this learning to improve your Pedorthic skills?
- Was there an aspect of the journal/case study that peaked your interested that you would like to follow up on?
- Did you disagree with an aspect of the journal/case study?

Upload the following report to the CEP Portal, along with any supporting documentation (copy of the journal article, etc).

Make sure you keep a copy of each learning report form for your own files.

Continuing Education Unstructured Learning Activity Report
